

Responsible Distribution
- A Roadmap to Success

Responsible Distribution Mentoring Program

National Association of Chemical Distributors

NACD is pleased to announce a new and valuable association resource, the Responsible Distribution Mentoring Program.

The Mentoring Program's goal is to further the mission of Responsible Distribution, that is, to continuously improve our members' environmental, health, safety, and security (EHS&S) requirements of Responsible Distribution, the association's third-party verification program. The primary objective of the program is to provide insight and expertise to NACD members from a professional well-versed in Responsible Distribution.

NACD will cover the Mentoring Program's expenses associated with phone and electronic communications and, when deemed necessary, an on-site member facility visit, with NACD paying for the Mentoring Program's labor costs, up to 8 hours on site!

For further information on the Responsible Distribution Mentoring Program, contact Mike Lang, Director, Responsible Distribution, at 703/527- 6223 or mlang@nacd.com.
