

NTTC is pleased to release the **2017 Cargo Tank Test & Inspection Workshops** schedule in partnership with the U.S. Department of Transportation (U.S. DOT) and the Federal Motor Carrier Safety Administration (FMCSA). These workshops are designed to help cargo tank repair technicians, testers and inspectors comply with current regulations – whether as a bulk motor carrier or as a commercial repair facility. We have four exclusive NTTC Cargo Tank & Inspection Workshops remaining in 2017:

- July 11-12, 2017: Omaha, NE
- August 8-9, 2017: Portland, ME
- September 19-20, 2017: Salt Lake City, UT
- October 11-12, 2017: New Orleans, LA (*in conjunction with Tank Truck Week*)

NTTC recently refined our mission: **“To champion safety and success in the tank truck community through advocacy and education.”** Tank truck carriers are already one of the safest segments of the trucking industry – but we can be even better. Together, we can work diligently to make our customers and the general public safer. To help you keep safety as the top industry priority, NTTC has strengthened our content – which also ensures the most value possible for your membership dues.

The workshops are conducted by experienced U.S. DOT / FMCSA field agents who are active in hazardous material and cargo tank training and enforcement – with special training in the details of cargo tank regulatory requirements. They use their experience in conducting facility audits to introduce “real world” issues into the workshops.

Each workshop focuses on compliance with the U.S. DOT’s cargo tank qualification and maintenance regulations found in 49 CFR Parts 107 and 180. Workshops also provide analysis of the complex series of federal regulations, helping carriers and repair facilities to achieve full compliance. Information on all MC and DOT series cargo tanks will be included in the curriculum.

On the back of this letter, you will find the **2017 NTTC/U.S. DOT Cargo Tank Test & Inspection Workshops Registration Form**. Please complete the form, indicating which workshop you plan to attend, and return it to NTTC as soon as possible. Space is limited, and classes are filling up quickly. We look forward to seeing you soon!

Sincerely,

Tracy Henke
Director of Education and Publications

NTTC/U.S. DOT Cargo Tank Test & Inspection Workshops

REGISTRATION

Registrant:				Badge Name (if different):	
Title:					
Name on Certificate:					
Company:					
Address:					
City:		State:		Zip:
