The Responsible Distribution PAC raised a total of \$263,120 and spent \$263,000 on campaigns prior to the elections in our last cycle. NACD held a "Get-Out-the-Vote" drive for five weeks before the elections with the goal of retaining supportive industry champions in the U.S. House and Senate. NACD focused on specific candidates and tight races across the country where NACD members' impact would be most significant. **NACD was successful in this goal. 84% of the candidates who ran for U.S. House or Senate who were supported by the PAC won their elections.**

Significantly, support for the PAC was unprecedented in 2012. Thank you for your financial resources and your dedicated partnership in the Responsible Distribution PAC. 2012 was a record-breaking year for NACD as we raised more for this political program than ever before in our history. Thank you to the NACD members who took time to go to fundraising events and serve as the "face" of NACD in different parts of the country this year. Thanks specifically to the NACD members who contributed at the MVP level and exhibited strong leadership. Thank you.

NACD will continue to pursue an enhanced political climate more favorable for chemical distribution by working with the Administration and the new Congress to address our priorities going into next year.
