

Improper Wearing of Protective Clothing

Category: PPE Related – Winter 2014-2015

Position(s) of employees/contractors:

Temporary Employee

Brief summary:

Regional operations manager noticed a temporary employee with pant legs (personal protective equipment) tucked inside of his boots.

List any corrective actions:

Manager stopped work in progress and pulled temp employee aside to counsel and retrain. Pants are to be worn outside of boot to prevent splashed material from running into boot. Employee was receptive to discussion and understood reason behind applicable practice.

Senior management involved:

Yes.
