The Interested Parties for Hazardous Materials Transportation (Interested Parties) represent industries involved with the shipment and transportation of hazardous materials. Collectively, our member companies operate in every state, have combined business revenues in excess of \$1 trillion, employ millions of workers, and have an enviable record of hazardous materials transportation safety and security. We met under the Interested Parties banner to share information, to identify issues, and to advocate for policies relating to the safe, secure and efficient transportation of hazardous materials.

As you consider the Pipeline and Hazardous Materials Safety Administration, and specifically the Office of Hazardous Materials Safety, we invite you to consider acting on the issues identified in the statement of issues.

Respectfully submitted,
